

## New Distributor for Northern California / Western Nevada

Effective October 1, 2009 Flowserve's Flow Control Division (Process Group) is pleased to announce the appointment of CTi Controltech as our distributor servicing the Northern California / Western Nevada market for the Worcester Controls product range.

Founded in 1959, Flowserve's Worcester Control products are recognized today as one of the world's leading brands.

Worcester can claim what is arguably the most comprehensive product range of any ball valve manufacturer in its field. From standard flanged ball valves to both ANSI and DIN specifications in reduced and full bore, to three piece valves for cryogenic, high pressure, steam, diverter or sampling duty, or high integrity valves, multi-way designs, modulating controls or customized solutions to specific user problems, we supply valves throughout the world for virtually any application.

### FEATURES

- 3-piece ball valve
- Flanged ball valve
- Modulating control valve
- Pneumatic actuator
- Electric actuator

We strongly believe that combining Worcester Controls product capabilities with CTi Controltech's extensive experience servicing the process control industries will provide our customers in Refining, Power, Food, Specialty Chemicals, Mining, Semi-conductor, and OEMs with the best possible support and service.

Please join me in welcoming CTi Controltech.
